GREAT JOB. YOU'RE DONE!

To move the assembled unit, please lift it up and do not drag to avoid damaging the floor or breaking the parts.

When you assemble this bed, please make sure all screws are fastened tightly. After one or two months, please recheck and make sure all screws are still tight.

Our bed can hold weight of up to 150kg. We don't suggest overloading it beyond its weight capacity.

CARE INSTRUCTION

Follow these basic steps to protect your furniture.

Clean Gently

Use a mild wood cleaner or a mixture of water and mild dish soap to clean spills. Wipe the surface gently with a damp cloth, then dry it thoroughly.

Temperature and Humidity

Avoid direct sunlight. Maintain a consistent room temperature and humidity level to prevent wood from warping or cracking.

Use Furniture Pads

Place furniture pads or felt protectors under furniture legs to prevent scratches on floors.

Avoid Excessive Weight

Don't overload the bed beyond its weight capacity.
