Turn the horizontal adjustment screw clockwise to move the door closer to the cabinet frame and counterclockwise to move it away. This corrects side-to-side alignment.

Loosen the vertical adjustment screw slightly, move the door up or down to align it with the other doors, and then retighten the screw.

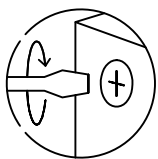

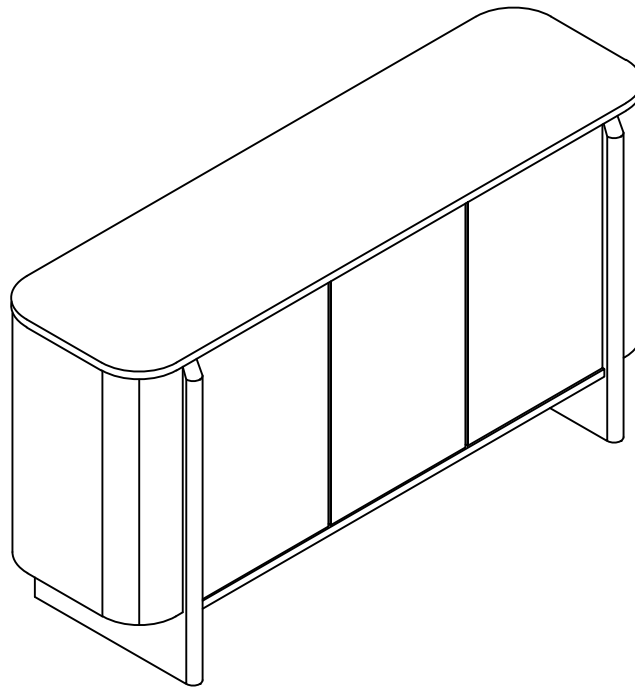

Close the door to check the alignment. Repeat the adjustments as necessary until the door is aligned.

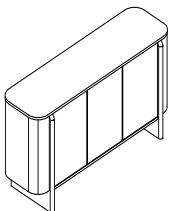

ASSEMBLY STEPS

GREAT JOB. YOU'RE DONE!

To move the assembled unit, please lift it up and do not drag to avoid breaking some parts and damaging the floor.

When assembling this Storage Buffet, please ensure that all screws are tight. After one or two months, please recheck and ensure that all screws are still tightened.

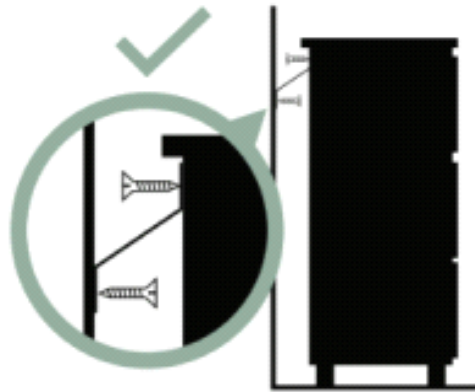

Our Storage Buffet can hold weight of up to 45 kg. We don't suggest overloading it beyond its weight capacity.
