Tarni 2-Person Traditional Finnish  
Outdoor Sauna

LUXO|Saunas

welcome.

***Dear Customer,***

Congratulations on your purchase of Tarni 2-Person Traditional Finnish Outdoor Sauna. We are confident that you will enjoy the many benefits of using the sauna for years to come.

It is essential to carefully and thoroughly read this manual in its entirety before assembling and operating the sauna for the first time. We recommend keeping this manual for regular review and future reference.

Our saunas are crafted from the finest materials, using cutting-edge technology and high-quality workmanship to meet the highest industry standards.

Regular use of the sauna can help improve numerous health benefits, contributing to noticeable improvements in pain relief, weight management, skin health and stress reduction by promoting improved blood circulation.

Discover the unique features of the Tarni sauna, including its numerous health advantages, superior quality, and our team's committed approach to customer service and support.

We are dedicated to ensuring customer satisfaction. Feel free to contact our team if you need any assistance.

**Please call us on 02 8999 1114  
or visit our website [www.luxoliving.com.au](http://www.luxoliving.com.au)  
Once again thank you for choosing our sauna products.**

Best Regards,  
Luxo Living Team

3. Backrest on Left

4. Bench Seat on Left

5. Triangular Bench on Left

6. Bottom

7. Front Panel

8. Door Glass

9 . Explosion-proof Light

10. Back Panel

11. Right Panel

12. Backrest on Right

13. Bench Seat on Right

14. Triangular Bench on Right

15. Sauna Stove & Oven Shelves

16. Handles

## Installation Information.

---

1. Do not plug any other appliances into the outlet with your sauna.
2. The sauna should always be placed on a fairly level surface.
3. Do not spray the exterior with water. If the floor is consistently damp, you will also need room behind the sauna to allow access to install a floor separator to keep the sauna high and dry.
4. Do not store flammable objects or chemical substances near the sauna.

## Assembly Instructions.

---

Assembly of the sauna requires **at least 2 able-bodied persons** to complete. Please read the instructions thoroughly before and during assembly to ensure proper installation of the unit. If you encounter any problems or have questions during assembly, please feel free to call our Customer Service or local dealers.

### STEP 1. LOCATION OF SAUNA

When determining a location for your sauna, please keep in mind the following:

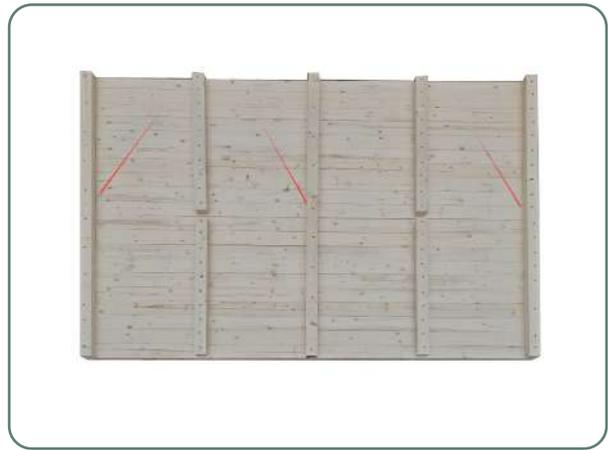

1. The main power cord of the sauna must be easily accessible.
2. The location must be dry and level.

### STEP 2. ASSEMBLE THE BOTTOM PANEL

Place the 2pcs half bottom panels on the ground and connect them together with 3pcs connecting rods for the bottom panel.(60pcs\*35mm screws needed)

***You will also need room behind the sauna to allow access to install a floor separator to clip in the back panel (Sauna can be slid back after installation).***

### STEP 3. CONNECTING BACK PANEL AND FRONT PANEL TO BOTTOM PANEL

Turn the connected bottom panel over first, then connect the back panel and the front panel to the bottom panel. Make sure the back panel and the front panel with the bottom panel are tightly connected.

#### STEP 4. ASSEMBLE THE BODY

After splicing the stave, use plastic hammers to set them firmly. Then fasten it with nail gun.  
(160pcs\*35mm screws needed)

#### Tools You Need

Power Drill x 1	Adjustable Wrench x 2	Tape x 1	Bar Level x 1	Pencil x 1

Take out the "STAVE O1 FOR THE LEFT WALL" from box 2.

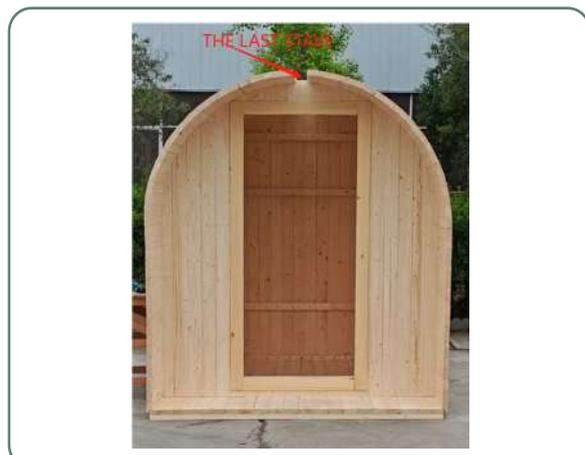

Take out the "STAVE O1 FOR THE RIGHT WALL" from box 3.

**Note:** When installing these two staves on both sides, it is essential to ensure that the whole stave and the bottom panel are in a parallel position, and also make sure that the height of the left stave and the right stave from the bottom panel is exactly the same.

**Note:** When installing each stave, pls strike the two ends and the middle of the stave with a hammer to ensure it adheres closely to the stave below. In addition, after installing every 5pcs staves, it is necessary to measure whether the distance from both ends of the stave to the first stave are the same. If they are not, the tightness of th higher stave should be adjusted to make its height exactly the same as that of the opposite stave before continuing the installation.

Take out the "LAST STAVE ON THE MIDDLE OF SAUNA ROOF" from box 3.

### STEP 5. INSTALLING THE WOODEN DOOR FRAME

Take out the Wooden Decorative frame and screw them on the front of the strips, as seen in the picture. (Note: All frames should be fixed neatly as can be seen in the picture.)

(30pcs\*35mm screws needed)

## STEP 6. ASSEMBLE THE TRIANGULAR BENCH

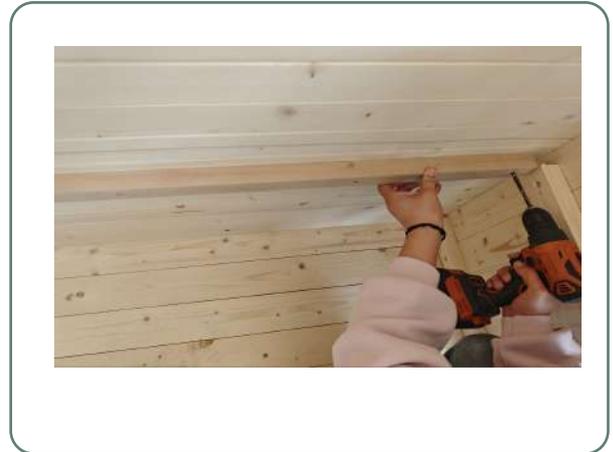

Take out the triangular bench\*2pcs, then screw them on the front of the strips.  
(8pcs\*35mm screws needed)

### STEP 7. ASSEMBLE THE BENCH AND BACKREST

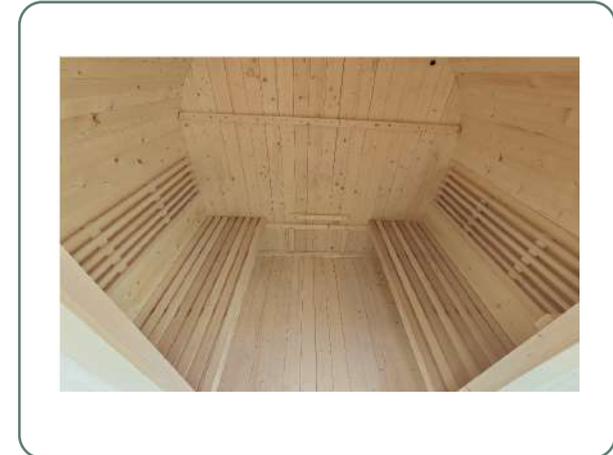

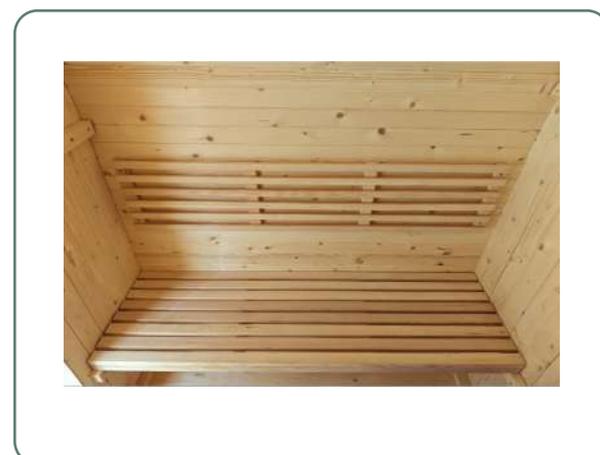

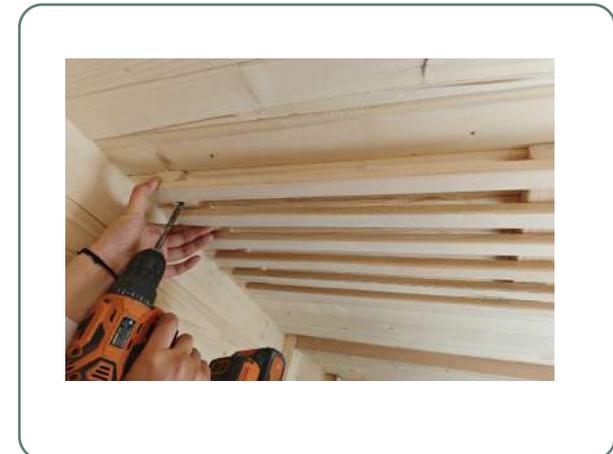

Take out the bench support frame and assemble the support on both sides of the inner wall, then put the bench seat on the support.

(12pcs\*35mm screws needed)

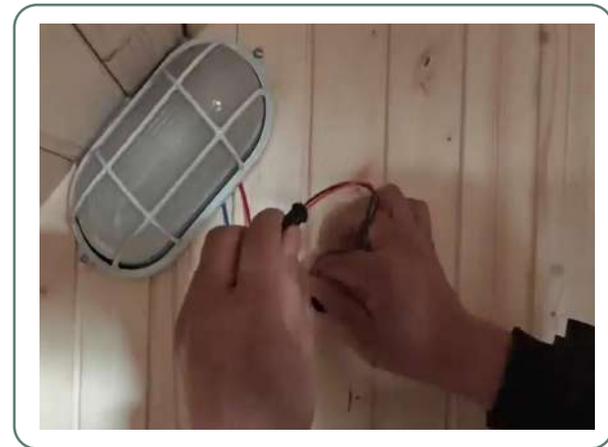

Take out the backrest, then assemble the backrest on both sides of the inner wall above the bench.

(12pcs\*35mm screws needed)

**STEP 8. ASSEMBLE THE EXPLOSION-PROOF LIGHT, THERMOMETER, HYGROMETER, & HOURGLASS**

Open the light shade. Screw the sauna light on the back panel. Connect the inner cable, Then screw the light shade. Connect the cable connector, and put the extra cable into the hole. (2pcs\*15mm screws needed)

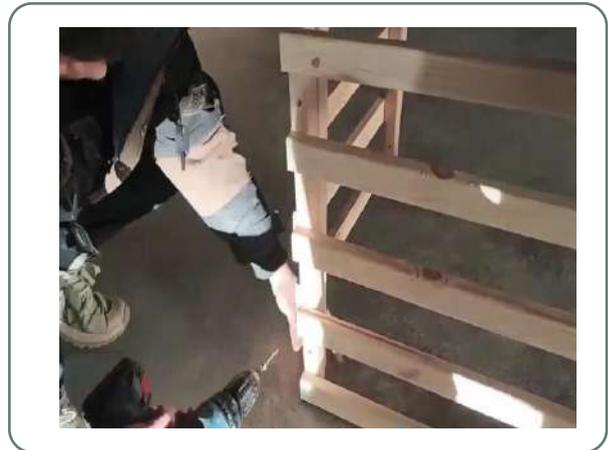

Assemble the thermometer, hygrometer, and hourglass.

### STEP 9. ASSEMBLE THE OVEN SHELVES

Assemble the oven shelves of sauna stove as shown in the pictures.  
(8pcs\*35mm screws needed)

## STEP 10. INSTALLING THE DOOR HANDLE

(2pcs\*80mm screws needed)

### STEP 11. ASSEMBLE THE TILES

Install the waterproof layer first. Start laying the first tile from the bottom edge of the waterproof upwards and fix with nail gun.

(120pcs\*35mm screws needed)

### STEP 12. INSTALLING THE SAUNA STOVE

Please refer to the provided instructions manual for sauna stove. The stove requires hardwired installation by a licensed electrician.

## Instructions for Use.

---

**Review all health and safety instructions. Please consult with your physician prior to using the sauna for any health concerns. If you feel light-headed or heat-exhausted during a session, exit the sauna immediately.**

1. Set the temperature to a comfortable level, normally, 40-50°C.
2. Allow approximately 8-15 minutes for the sauna to warm up before beginning a session.
3. Perspiration will start within 6 to 15 minutes after stepping into the unit. We recommend that a sauna session does not exceed 30 minutes.
4. When the temperature reaches the level set on the thermostat, the heaters will turn off and on periodically to maintain the desired temperature level inside the sauna.
5. The front door/window and/or ceiling vent can be opened at any time to introduce fresh air into the sauna.
6. The steam generated in the sauna effectively works with the humidity produced by the unit, offering a number of health advantages like enhanced metabolism, weight loss, stress reduction, improved cardiovascular function, reduction of systemic inflammation, pain reduction, circulation improvement, congestion clear-up, skin rejuvenation--even slowing down its ageing thereby promoting skin health, among other things.
7. Always drink plenty of water before, during, and after a sauna session. Doing so will replenish lost fluids from the body through perspiration.
8. Choosing to take a hot shower or bath prior to the sauna session will further promote perspiration. However, dry off thoroughly before going into the sauna because excessive water will stain or warp the wood. A shower after the session is refreshing and rinses perspiration from the body.
9. During the sauna session, keep the sauna tidy by placing a towel on the bench and the floor to absorb your perspiration. Keep one towel handy to wipe off excess sweat from your body.

## Warning.

---

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or who lack the experience and knowledge, unless they have been given supervision or instruction concerning the use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance.

## Tips for use.

---

1. To regulate the temperature inside the sauna during your session, use the roof vent or the door window (by setting it at an angle).
2. If you feel the need for more cooling, simply leave the door open until the air around you feels comfortable enough.
3. Drink plenty of fluids prior to, during, and after your session.
4. If you take a hot/warm shower or bath before your sauna session, you may perspire more. Try it with and without bathing or showering first to determine which way you prefer.
5. To utilise the sauna's heat therapy effect, give your hair a hot oil treatment while in the sauna. Put oil or treatment into your hair and wrap it with towel. After the session is over, rinse your hair thoroughly.
6. Use at least 2-3 towels. Sit on one towel folded over several times for added cushioning. Put another towel on the floor to absorb extra sweat. A third towel draped over the knees may aid you in comfort and is useful to towel off sweat.
7. Be sure to towel off excess sweat during your session to help the body perspire more freely.
8. To help relieve sore and tense muscles, massage the affected areas while in sauna to help heal faster.
9. Shaving your face or legs with a razor while profusely sweating in a sauna yields an incredibly smooth result without the use of gels or foams.
10. Do not eat anything at least an hour before your sauna session. It is better to go in the sauna on an empty stomach. You are more likely to feel uncomfortable sitting in a sauna with a full stomach.
11. To make the most out of your sauna session, work your muscles while in the sauna. Stretch your arms and legs, massage your neck, massage your feet, etc.
12. You can benefit from the relaxing and soothing effects of a regular sauna session by going to sleep afterwards. The peaceful and relaxed state rendered by a sauna session will help you sleep easier and better.
13. At the first sign of cold or flu, increasing your sauna sessions may be beneficial in boosting your immune system and decreasing the reproductive rate of the viruses.
14. Consult your physician for the proper treatment for this or any other conditions.
15. To treat your ankles and feet more effectively, you must elevate them while inside the sauna. Any area that you wish to achieve a specific deep heating effect in should be moved as close to one of the heaters as feels comfortable.
16. After the session is over, do not immediately jump into the shower. Since your body was heated up during the session, it will continue to sweat even after the session. Sit in the sauna with the door open and let the body sweat a little more while it cools off. After you feel comfortable enough, take a warm shower and finish it off with a cold shower to cool off completely.

## Safety Instruction.

---

1. Read and follow all instructions carefully.
2. When installing and using this electrical equipment, you should always follow basic safety precautions.
3. Do not use the sauna immediately following strenuous exercise. Wait at least 30 minutes to allow the body to cool down completely.

### Safety precautions

- a. To avoid fire, do not dry clothes or leave any towels in the sauna.
- b. To prevent burns or electric shocks, do not touch or use metal tools on the net cover of the far infrared heater elements.
- c. While in the sauna, do not touch the light bulb. If the bulb needs to be changed, switch it off and wait until the sauna is shut off and the bulb is cool.
- d. Do not spray water on the far infrared tube. This activity may result in electric shock or damage to the heater elements.
- e. For the safety and well-being of everyone, listed below are precautions when using the sauna:
  - 1) For Individuals with Certain Medical Conditions: Saunas increase body temperature and heart rate, which may not be suitable for individuals with:
    - Heart disease or other cardiovascular conditions
    - Respiratory issues, such as asthma
    - Kidney disorders
    - Diabetes or blood sugar-related conditions
    - Low or high blood pressurePlease consult a physician before using the sauna if you have any of these or other chronic health concerns.
  - 2) Pregnant Individuals: Saunas can raise body temperature to levels that may be unsafe during pregnancy, especially in its early stages. Always check with your doctor before use.
  - 3) Children and Elderly Individuals: Young children and older adults may be more sensitive to heat. Children under 12 should not use the sauna unless under close supervision, and only for short periods. Elderly users should consult their healthcare provider and start with lower temperatures and shorter sessions.
  - 4) Individuals Under the Influence of Alcohol or Drugs: Alcohol and certain medications can impair judgment, increase dehydration, and raise the risk of overheating. Please avoid using the sauna while under the influence of any substances that may affect your awareness or body temperature regulation.
  - 5) Those Feeling Unwell: If you have fever, flu symptoms, or any form of infection, wait until you are fully recovered before using the sauna. Saunas can place additional stress on the immune system.
  - 6) Individuals with Open Wounds or Skin Conditions: Saunas can aggravate certain skin conditions or delay healing of open wounds. Consult a dermatologist if you have skin sensitivities or chronic conditions like eczema or psoriasis.

These precautions are intended to ensure a safe and enjoyable sauna experience for everyone. Always seek medical advice before using the sauna.

## Disclaimer.

---

Please read the following disclaimer carefully before purchasing or using our sauna product. By proceeding with the purchase or use of our sauna, you acknowledge that you have read, understood, and agreed to the terms and conditions outlined below:

### **Health Considerations**

Our sauna is designed to provide relaxation and promote overall wellbeing.

However, it is essential to consult with a healthcare professional before using the sauna if you have any underlying health conditions, including but not limited to cardiovascular problems, high blood pressure, respiratory issues, diabetes, or any other medical concerns. Pregnant women and individuals under the age of 18 should also seek medical advice before using the sauna.

### **Proper Usage**

Our sauna should be used strictly in accordance with the manufacturer's instructions and guidelines. Failure to follow the provided instructions may result in personal injury, property damage, or adverse health effects. The sauna should be used in a well-ventilated area and for the recommended duration specified by the manufacturer. Overexposure to heat can be hazardous and cause overheating or dehydration.

### **Safety Precautions**

It is important to take appropriate safety precautions while using the sauna. Do not use the sauna under the influence of alcohol, drugs, or any other substances that may impair judgment or increase the risk of accidents. Never leave the sauna unattended while it is in operation, especially if there are children or vulnerable individuals present. Keep flammable materials away from the sauna and ensure there is sufficient space around it to prevent fire hazards.

### **Maintenance and Care**

Regular maintenance and cleaning of the sauna are necessary to ensure its optimal performance and longevity. Always follow the manufacturer's instructions for cleaning and maintenance procedures. Failure to maintain the sauna properly may lead to malfunctioning or safety hazards. If you notice any signs of damage or malfunction, discontinue use and contact our customer support immediately.

### **Limitation of Liability**

We strive to provide a high quality and safe product, but we cannot be held responsible for any direct or indirect damages, injuries, or accidents resulting from the purchase, installation, or use of our sauna. The buyer assumes all responsibility and liability associated with the use of the sauna.

### **Legal Compliance**

It is the buyer's responsibility to ensure compliance with all applicable laws, regulations, and local building codes regarding the installation, operation, and use of the sauna. Any modifications or alterations made to the sauna without prior authorization from the manufacturer may void the warranty and could compromise its safety.

*It is strongly recommended to seek professional advice or assistance whenever necessary to ensure safe and proper use of the product.*

***Again, we thank you for your purchase.  
You've made our day, and we hope you have a great one too!  
Enjoy your sauna!***
