GREAT JOB. YOU'RE DONE!

To move the assembled unit, please lift it up and do not drag to avoid breaking some parts and damaging the floor.

When you assemble this bar stool, please make sure all screws are fastened tightly. After one or two months, please recheck and make sure all screws are still tight.

Our bar stool can hold weight of up to 120kg. We don't suggest overloading it beyond its weight capacity.

CARE INSTRUCTION

Follow these basic steps to protect your furniture.

Clean Gently

Use a mild fabric cleaner or a solution of water and mild detergent. Dampen a soft cloth and gently blot the stain. Do not rub to avoid fabric damage. After cleaning, allow the fabric to air dry but not direct heat dry to avoid fabric shrinkage or damage.

Temperature and Humidity

Avoid direct sunlight. Maintain a consistent room temperature and humidity level to prevent discolouration.

Use Furniture Pads

Place furniture pads or felt protectors under the furniture legs to prevent scratches on floors.

Avoid Excessive Weight

Don't overload the bar stool beyond its weight capacity.
