GREAT JOB. YOU'RE DONE!

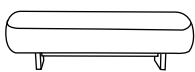

To move the furniture, lift it up and do not drag it to prevent damage to both the furniture and your floor.

When you assemble this bench, please make sure all screws are fastened tightly. After one or two months, please recheck and make sure all screws are still tight.

Before using this bench, please check if the support legs under the bench are in an upright position. Ensure that they are always in an upright position.

Our bench can hold a total weight of 120 kg. We don't suggest overloading its weight capacity.

CARE INSTRUCTION

Follow these basic steps to protect your furniture.

Clean Gently

Use a mild fabric cleaner or a solution of water and mild detergent. Dampen a soft cloth and gently blot the stain. Do not rub to avoid fabric damage. After cleaning, allow the fabric to air dry but not direct heat dry to avoid fabric shrinkage or damage.

Temperature and Humidity

Avoid direct sunlight. Maintain a consistent room temperature and humidity level to prevent discolouration.

Use Furniture Pads

We recommend placing felt pad protectors under furniture legs to prevent scratches on the floors.

Avoid Excessive Weight

Don't overload the bench beyond its weight capacity.

***Again, we thank you for your purchase.
You've made our day, and we hope you have a great one too!
Enjoy your furniture!***
